INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/017897

The subject matter of claims 16-20 involves all polymers which each has branches linked through a carbon-carbon bond and has a given molecular weight, etc. However, of the hyperbranched polymers claimed, those disclosed in the meaning of Article 5 of the PCT are limited to an extremely small part, i.e., the polymers of claims 1-15. The polymers claimed are not considered to be supported by the description in the meaning of Article 6 of the PCT.

Therefore, a search was made for the range which is disclosed in and supported by the description, i.e., the polymers of claims 1-15.
